Easily capture high quality data

The MagCruiser™ has a simple software interface that has been designed for a comfortable user experience. Operators will feel confident programming and retrieving data with our intuitive handheld device.

Simple to use with accurate results

Proven in the harshest non-magnetic mining conditions, our MagCruiser™ technology offers top performance at affordable rates. Our magnetic surveying instrument works in all inclinations and automatically generate reports at any interval

Affordable survey option for low cost projects

SPT has created the most advanced quality control system in the industry. Our calibration equipment ensures that you maintain complete accuracy throughout your project and reduce overall downtime.
