

Slim and compact continuous measurement gyro. Ideal for blast hole measurement

Ø 32mm

Bluetooth®

Robust and reliable
gyro with up to 2000
hours MTBF

Technical Specifications

Equipment		Operation	
Diameter	32mm (1.26")	Well profiles	Inclined and horizontal
Weight	2.4kg (5.29 lbs)	Memory mode	Applicable
Length	950mm (37.40")	Working in magnetic field	Unaffected data
Temperature rating	-10°C to 70°C 14°F to 158°F	Battery	20 hours in continuous mode
Pressure rating	30MPa (4351psi)		

Software		Performance	
Export format	PDF, Excel, CSV, LAS, DXF	Inclination accuracy	± 0.05°
Survey report	Generate at any interval	Position accuracy	<0,8% (NS, EW,Elev)
Tamper-proof	Yes	Inclination range	-85° a + 85°
Graphic generation	2D, 3D		

Maximum lightness without loss of accuracy

At only 32 mm in diameter and 950 millimeters in length, GyroScout™ is one of the lightest, most portable and robust gyroscopes on the market. at 2.4 kg weight, it helps you to minimise time and optimise effort in survey operations.

Automated and intuitive software

The software used to control the GyroScout™ is intuitive, simple and powerful at the same time, and includes the option of exporting detailed reports in the most widely used formats in the industry: PDF, Excel, CSV, LAS and DXF. The tool can instantly synchronize data in the cloud thanks to its native support for SPT SmartCloud™ which allows you to manage and store measurements from all mining projects with complete security and data protection.

Handy and versatile design

GyroScout™ is a versatile tool; its rugged design allows it to operate at all angles in the most adverse conditions. It is the industry's smallest gyro with integrated pressure barrel. An optimal solution for blasting operations.
